Tesfatsyon Simon **Ochono**

PhD Candidate | Civil and Environmental Engineering (Smart Cities) | Western University

London, Ontario, Canada | tesfasimon1@outlook.com | tesfatsyon.github.io

ORCID | Google Scholar | LinkedIn | ResearchGate

PROFILE

Researcher in building energy and climate adaptation, developing design methods for energy-efficient, thermally comfortable and low-carbon buildings and data centers. Integrates building information modeling, building performance simulation, multi-objective optimization and machine learning to support robust decisions under present and future climates.

RESEARCH INTERESTS

- Building performance simulation
- Building thermal performance
- Heat transfer and thermo-fluids
- Climate-adaptive design
- Design optimization
- Machine learning
- Building digital twins
- Energy-efficient data centers
- Low-carbon buildings

EDUCATION

PhD, Civil and Environmental Engineering (Smart Cities) 2023 – Present
Western University *London, ON, Canada*

- Thesis: Integrated Design Optimization for Sustainable Buildings and Data Centers Using Physics-Based Simulation and Machine Learning Under Climate Change
- Supervisors: Prof. Girma Bitsuamlak and Prof. Katarina Grolinger
- CGPA: 90%

MSc, Power Engineering (Thermal) 2020 – 2022
Warsaw University of Technology, Faculty of Power and Aeronautical Engineering *Warsaw, Poland*

- Thesis: Extracting Heat from Nuclear Power Plants for District Heating: A Case Study of the AP1000
- Supervisor: Prof. Rafał Laskowski
- CGPA: 4.62/5.00 (92.4%)

BSc, Mechanical Engineering 2012 – 2017
Arba Minch University *Arba Minch, Ethiopia*

- CGPA: 3.61/4.00 (90.25%)

TEACHING EXPERIENCE

Graduate Teaching Assistant Jan 2024 – Present
Western University *London, ON, Canada*

- Led tutorials and laboratory sessions; graded assignments, reports, quizzes and examinations
- Held office hours; invigilated quizzes, midterms and final examinations
- Courses:
  - Heating, Ventilating and Air Conditioning
  - Computational Tools for Civil Engineers
  - Climate Hazards for Engineers
  - Building Sustainability
  - Foundations of Engineering Practice

Assistant Lecturer Dec 2018 – Jun 2019
Department of Mechanical Engineering, Wolaita Sodo University *Wolaita Sodo, Ethiopia*

- Assisted in teaching Engineering Thermodynamics and Heat Transfer
- Advised students; supported departmental research, workshop practice and community service

PROFESSIONAL EXPERIENCE

Senior Process Executive (Programmer) Jan 2022 – Sep 2023
Cognizant Technology Solutions (client: Google) *Kraków, Poland*

- Evaluated cases for the Google project against detailed policy guidelines
- Identified complex issues and referred them for senior review
- Achieved high accuracy and quality while meeting service-level targets

CONFERENCE PRESENTATIONS

Energy Optimization Approach for Mass Timber Office Building Design under Climate Change — 2026
eSim 2026: Advancing Sustainability and Climate Resilience, Longueuil, QC, Canada

Predicting Building Energy Demand Using Federated Learning with Attribute-Based Clustering — 2024
9th International Building Physics Conference (IBPC 2024), Toronto, ON, Canada

Application of the AP1000 Nuclear Power Unit to Supply Heat to the District Heating System — 2023
XV Youth in Power Engineering Conference, Wrocław, Poland 3rd Place, Best Presentation Award

AWARDS AND HONORS

3rd Place, Best Presentation Award, XV Youth in Power Engineering Conference, Wrocław, Poland — 2023

SPINAKER Scholarship, Polish National Agency for Academic Exchange (NAWA) — 2022

Ignacy Łukasiewicz Scholarship, Polish National Agency for Academic Exchange (NAWA) — 2019

SKILLS

Simulation software	DesignBuilder, EnergyPlus, OpenStudio, IES VE
Programming	Python, C/C++, MATLAB, LaTeX
CAD and BIM	Autodesk Revit, AutoCAD, SketchUp
Research computing	High-performance computing (SHARCNET, Compute Ontario)
Languages	Amharic (native), English (professional, C1), Polish (intermediate, B1)

CERTIFICATIONS AND TRAINING

DesignBuilder Simulation Training, DesignBuilder Software (48 CPD hours) — 2025
Building energy modeling, HVAC systems, loads, daylighting, CFD and optimization

Compute Ontario Summer School, ACENET, SciNet and SHARCNET — 2025
Introduction to Advanced Research Computing; Working with Jupyter on the Clusters; Scaling Up HPC Workflows

Parallel Programming with C++, SHARCNET — 2023

SERVICE AND MEMBERSHIPS

Volunteer, 8th International Symposium on Computational Wind Engineering (CWE 2026) — 2026

Member, International Building Performance Simulation Association (IBPSA) — 2026 – Present

Member, American Society of Heating, Refrigerating and Air-Conditioning Engineers (ASHRAE) — 2026 – Present
